

Lame Deer

Midterm Paper Writing Theme

Questions for Critical Inquiry/Analysis

1. Conduct an in-depth analysis comparing and contrasting Native American and Euro-American attitudes and practices toward Nature. Document the effects/impacts of Euro-American practices on Native American life-ways? End by posing some solutions to the conflict. Develop your analytical focus with copious quote from your primary and secondary sources.
2. What are the defining elements of Lame Deer's style? If by analysis, we mean the process of breaking something down into its component parts, and assessing those parts, then write a focused, concretely developed, well-researched essay in which you analyze what you believe to be the defining elements of Lame Deer's narrative style, citing copious examples from *Lame Deer: Seeker of Visions* to support your analysis..
 - Myth
 - History
 - Social critique
 - Personal experience (subjective)
